

MEETING REPORT

Team Name: Undecided

Date of Meeting: 3/13/2024

Start Time: 10:00 **End Time:** 11:00 **Meeting Location:** School Cafeteria

Moderator: Alvi Hysa **Recorder:** Indrit Ferhati

Other Members Present: Endi Deralla, Enia Çerri, Rosela Berberi, Fjoralba Tusha, Jusra Gazidede

Members Absent: N/A

Topics Discussed:

Guest Search Functionality (UR-1, UR-2):

The group debated the search interface's design, ensuring ease of use and clear presentation of available properties. They discussed incorporating map views and filtering options by location, price range, and essential amenities.

Host Listing Creation (UR-3): They focused on creating a user-friendly listing process. This included discussions about photo upload functionalities, detailed description fields, pricing options, and calendar management tools.

Admin Controls (UR-5, UR-6): The group emphasized the importance of a robust admin dashboard. They discussed functionalities for reviewing listing completeness, adherence to guidelines, and generating financial reports with key metrics for informed decision-making.

Decisions Made:

The search interface will prioritize user-friendliness with clear filters for location, price, and amenities.

The app will offer an intuitive listing creation process with features for uploading multiple photos, detailed descriptions, and flexible pricing options.

The admin dashboard will include functionalities for reviewing listings, managing user accounts, and generating comprehensive financial reports.

Tasks Assigned:

Indrit was tasked with creating a detailed mockup of the search interface, including location filters, map view, and property result displays. (This relates to UR-1 & UR-2)
